ABOUT

Description

The idea behind Swing Trade Warrior here on YouTube is to share and highlight profitable swing trading strategies and ideas with new and experienced traders and investors alike. At Warrior Trading, we place a heavy emphasis on knowledge and education, and we trade the strategies that we teach. It is said that over 90% of retail traders fail, but that doesn't have to be the case. Our community is over 80% profitable and there is a reason for that...education. Knowledge is power. We offer a free 7 day trial, so anyone can take a look and decide for themselves. We provide day trading, swing trading, live screen share and audio for all trades and breaking news. We send out trade alerts via email, text and in live chat. www.warriortrading.com/register for the free 7 day trial
